**Discussion and consideration of Measure I Youth Work Grants**

Measure I has a small amount of funding remaining for Youth Activities for the current fiscal year. In order to encourage local youth work in the community, we would propose that the Town of Fairfax set aside a \$1500 fund to be awarded as grants to a local youth who demonstrate a commitment to the ecology, health and sustainability of our community by participating as a local volunteer in a community based project in the upcoming year.

The fund could be awarded to one individual or several depending on the criteria developed by the Youth Commission and the response from the community. The scholarship would be an investment in the betterment of our Town and provide an opportunity to locally employ a local youth in an altruistic venture.

The selection process would be administered by the Fairfax Youth Commission and awarded by the Fairfax Town Council.
