Sustainable Fairfax Zero Waste Report

As we near one year of our Zero Waste 2020 initiative, Sustainable Fairfax has developed a community Zero Waste Committee that helps educate and drive local recycling and composting programs. We've worked to divert valuable resources from the landfill during large-scale events and through everyday practices both commercially and residentially. We've collaborated with County and local task forces, officials, community leaders and businesses. We've made a local and countywide impact and are motivated to continue our programs as well as expand our reach.

Below is a progress report outlining our programs, a fiscal status report as well as a request for \$7,797.68 in funds that would fulfill the previously approved project budget with Sustainable Fairfax and the Town of Fairfax. The first \$20,000 came from JPA funds that are specific to this purpose. The council needs to determine where funds come from to make this whole. It is our understanding that the Town of Fairfax Zero Waste committee has suggested that the funds might come from increased franchise fees via Marin Sanitary Service. We thank you for your ongoing support.

Developed Community Zero Waste Committee

Renee Goddard (Program coordinator), Chelsea Donovan (program manager) and Board members of Sustainable Fairfax recruited members from the community to start the first local Zero Waste Committee in June 2012. The Committee consists of 12 members and continues to grow. We are excited to have two Drake High interns from the Studies of the Environment Academy- Drake Integrated Studies program (Sea Disc).

We have a Zero Waste communication team that consists of four Patch San Anselmo-Fairfax bloggers. There is a Green Tips, Youth Corner and Zero Waste technical perspective page. Currently articles are written about Zero Waste initiatives 2-3 times a month.

Our monthly meetings consist of planning and education on the following:

- Program coordinator updates the committee on County policies and events
- Discussion of local and countrywide zero waste efforts
- Discuss how we can engage and drive community on Zero Waste initiatives
- Coordination and implementation of Zero Waste events, lectures and programs
- Create communication and marketing pieces for events and messaging
- Coordination of MSS facility educational tours
- Promotion of the MSS Universal Hazardous Waste program.
- Coordination and promotion of a Extended Product Responsibility (EPR) workshop at MSS with California Product Stewardship Council
- Designed and promoted "Zero Waste Wednesdays" at the Fairfax Farmer's Markets
- Promotion four Zamora compost drop offs in Fairfax in 2012

Coordinator for Recycling and Composting at local special events

Sustainable Fairfax consulted with Marin Sanitary Service (MSS) and California Conservation Corp of North Bay (CCNB) during the design of Zero Waste stations. Zero Waste stations serve as a landfill diversion system coupled with a community educational component. Stations were installed at the following events:

1. Fairfax Festival (94% diversion rate)
2. Craft Faire - (1,500 people)
3. Fairfax Picnic - (500 people)
4. Streets for People - (150 people)
5. Good Earth Opening
6. Sustainable Fairfax Fundraiser

During the 2012 Fairfax Festival Sustainable Fairfax worked with CCNB to set up and staff Zero Waste stations throughout the event. There were 40 recycling totes, six Zero Waste stations and ten Zero Waste employees. **Our joint efforts resulted in 94% landfill diversion rate. That's over a 20% greater diversion rate from the previous year.**

We relied on volunteers and our community Zero Waste Committee to staff and educate the public about recycling and composting systems during other events. At the first Streets for People event we trained local boy scouts and community volunteers on staffing and providing education on Zero Waste. Some of these volunteers are now working with Sustainable Fairfax on a Commercial Recycling Program. Education included information on current allowable compostable materials at home and in town, recyclable plastics versus bio plastics, MSS's Universal Hazardous Household Waste program, as well as other recycling services offered by MSS.

Zero Waste Panel

We hosted a Zero Waste Panel on September 20th, 2012 at the Community Church. Over 50 community members attended the event to hear pioneers in the Zero Waste field. Speakers included Andy Peri, Green Sangha and co-founder of Rethink Plastics, Rebecca Burgess, restoration educator and funder of FiberShed, Carrie Bachelder, owner of the Away Station and Kim Sheibly, outreach and communications director for MSS.

Commercial Recycling Program Three Model Businesses

We are nearing the implementation phase of the Commercial Recycling Program. The program is designed to facilitate and educate business owners to install recycling systems. We selected three businesses that would create the largest impact and act as a model for other businesses in the town and county. The Committee conducted a survey with over 200 participants on commercial recycling

and whether a businesses recycling practices influences a customers loyalty. We created commercial recycling packets as a resource and model for Committee members. It includes the commercial recycling model, our Zero Waste initiative pitch, how we will assist them in developing systems, bin descriptions and options as well as our promise to promote and recognize each business as a model for our community. We will start approaching businesses next week.

Conduct Backyard-Composting Workshops for Residents

Last summer we conducted a worm bin-composting workshop held at the former Sustainable Backyard. Both adults and children attended the workshop and left with functioning worm-bin composting boxes for their backyard. We hired a vermiculturist to teach the workshop. A worm bin, for educational purposes, was displayed at several Fairfax Farmers Markets as well as at our booth at Earth Day Marin at the San Rafael Civic Center.

We are developing a Backyard Brush Composting workshop this Spring.

Take Back Day

We are working with MSS, the Town and local businesses to create the first Take Back Day on April 27th, 2013. This will be a large-scale event aimed at out reach and education on reuse, recycling options as well as MSS services. We will have an E-waste, paper shredder and prescription drug take back station available to the public. Our Zero Waste Committee and volunteers from the community will staff the event.

Sustainable Fairfax Zero Waste Funding Summary

Approved Budget	\$27,800
Expenses-paid by town	\$20,002.32
Remaining Funds	\$7, 797.68

Sustainable Fairfax Zero Waste Proposed Budget 2011-2012

Project Coordinator		\$12,500
Consultant Organization oversight staff and organizational support		\$5,000
Workers Comp insurance for coordinator and oversight staff		\$800
Materials	-Support for Committee -Signage for model sites at three businesses and three multi-family	\$7,500

	complex sites -Printed materials for education at events and model sites -Workshop materials	
Subcontracting to Graphic designers, website tech, and educators for workshops		\$2,000
One year total		\$27,800

Sustainable Fairfax Zero Waste Expenses and Revenue 2011-2012

Project Coordinator (240 hours)	05/15/2012	\$6,000
Organizational Support (84 hours)	05/15/2012	\$1,500

Organizational Support (30 hours)	01/14/2013	\$750
Total		\$20,002.32

**PERSONAL SERVICES AGREEMENT
TOWN OF FAIRFAX**

THIS AGREEMENT is made and entered into this 7th day of March, 2012, by and between the Town of Fairfax (hereinafter referred to as "Town") and Sustainable Fairfax (hereinafter referred to as "Consultant").

RECITALS:

WHEREAS, Town desires to retain the services of Consultant to provide professional zero waste, waste reduction, recycling, food and yard waste composting workshops and public promotion and education of all aforementioned services and specifically to assist the Town in implementing the Zero Waste Grant; and

WHEREAS, Consultant is qualified by virtue of experience, training, education and expertise to provide such services.

NOW, THEREFORE, Town and Consultant mutually agree as follows:

Section 1. Scope of Work.

Consultant shall implement the Zero Waste Grant as described in Exhibit A "Description and Scope of Services" and as described in the Zero Waste Grant attached as Exhibit B.

Consultant warrants that all of its services shall be performed in a competent, professional and satisfactory manner and in accordance with the prevalent standards of its profession.

Section 2. Term.

This Agreement shall commence on March 8, 2012 and continue until terminated as provided in Section 14 herein.

Section 3. Compensation.

3.1 Rate Schedule.

Services provided by Consultant shall be billed to the Town at an hourly rate of no more than \$50 per hour. The total amount shall not exceed \$10,000.

Included within the above compensation are all the Consultant's expenses. No expenses of Consultant shall be chargeable to the Town without the prior written approval of Town.

3.2 Method of Payment.

Payment shall be made in compliance with the terms of the payment schedule set forth in the approved task order.

3.3 Records of Expenses.

Consultant shall keep complete and accurate records of all costs and expenses incidental to services covered by this Agreement. These records will be made available at all times to Town.

Section 4. Independent Contractor.

It is agreed that Consultant shall act and be an independent contractor and not an agent or employee of Town and shall obtain no rights to any benefits which accrue to those agencies' employees.

Other than in the performance of professional services by a design professional and to the full extent permitted by law, CONSULTANT shall indemnify, defend and hold harmless LOCAL AGENCY and any Indemnified Parties, from and against any liability, (including liability for claims, suits, actions, arbitration proceedings, administrative proceedings, regulatory proceedings, losses, expenses or costs of any kind, interest, defense costs, reasonable attorneys fees and expert witness fees), where same arises out of the performance of this Agreement by CONSULTANT, its officers, employees, agents, and sub-consultants, excepting only that resulting from the sole negligence, active negligence or intentional misconduct of LOCAL AGENCY, its employees, officials, or agents.

Section 5. Changes to Scope of Work.

Changes in the Scope of Work may occur from time to time, within the general framework of the Scope that has already been outlined. In the event of a change which exceeds the general framework as outlined in the Scope of Work as set forth in Section 1, the Parties hereto shall execute an addendum to this Agreement setting forth with particularity all terms of the new agreement, including but not limited to any additional Consultant's fees.

Section 6. Familiarity with Work.

By executing this Agreement, Consultant warrants that it has investigated the work to be performed and is capable of performing that work.

Section 7. Time of Essence.

Time is of the essence in the performance of this Agreement.

Section 8. Compliance with Law.

Consultant shall comply with all applicable laws, ordinances, codes and regulations of federal, state and local government.

Section 9. Conflicts of Interest.

Consultant covenants that it presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of the services contemplated by this Agreement.

Section 10. Copies of Work Product.

All reports submitted shall be in electronic reproducible format.

Section 11. Ownership of Documents.

All reports, information, data and exhibits prepared or assembled by Consultant in connection with the performance of its services pursuant to this Agreement are confidential to the extent permitted by law, and Consultant agrees that they shall not be made available to any individual or organization without prior written consent of the Town. All such reports, information, data, and exhibits shall be the property of the Town and shall be delivered to the Town upon demand.

Section 12. Insurance.

Consultant shall provide evidence of automobile insurance coverage reasonably acceptable to the Town prior to commencing work.

Section 13. Termination.

Town shall have the right to terminate this Agreement by giving thirty (30) days' advance written notice of termination to Consultant. Consultant shall be entitled to full payment for services performed prior to the effective date of termination

Section 14. Notice.

All notices shall be personally delivered or mailed to the below listed addresses, or to such other addresses as may be designated by written notice. These addresses shall be used for delivery of service of process:

To Town: Town of Fairfax
 Michael Rock, Town Manager
 142 Bolinas Road
 Fairfax, CA 94930

To Consultant :
Chelsea Donovan, Executive Director
Sustainable Fairfax
294 Cascade Drive
Fairfax, CA 94930

Section 15. Attorneys' Fees.

If any action at law or in equity is necessary to enforce or interpret the terms of this Agreement, the prevailing party shall be entitled to reasonable attorneys' fees, costs and necessary disbursements in addition to any other relief to which he may be entitled.

Section 16. Dispute Resolution.

In the event of a dispute arising between the parties regarding performance or interpretation of this Agreement, the dispute shall be resolved by binding arbitration under the auspices of the Judicial Arbitration and Mediation Service ("JAMS").

Section 17. Entire Agreement.

This Agreement constitutes the entire understanding and agreement between the parties and supersedes all previous negotiations between them pertaining to the subject matter thereof.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement.

Fiscal year 2010 -2011
Zero Waste Grant Final Report Form

Explanation of Project

Provide a brief description of the project as a whole

Sustainable Fairfax performed outreach and education campaign to kick off the Fairfax, 'Zero Waste by 2020' campaign. Met with Marin Sanitary Service (MSS) to strategize and schedule the implementation of the new services in the resource recovery contract with the Town of Fairfax. Researched and gathered information on the most recent technologies being used nationally and internationally for waste reduction, and recycling processes.

Program Start Date & Progress

Please identify the program commencement date, state completion on pending tasks (percentage), date of work complete.

Program Commencement Date – July, 2011

Tasks-

1. Coordination of recycling and composting at special events.
 - a. Coordinated with California Conservation Corp of North Bay for waste reduction and recycling at the Fairfax Festival. - See attached invoice.
 - b. CCNB collected and sorted recyclables, compost and landfill items during the Fairfax Festival on June 11 and 12, 2011.
 - c. Coordination of recycling receptacles in public right-of-way.
 - d. Coordination with California Conservation Corp of North Bay.
2. Conduct backyard workshops for residents.
 - a. Completed worm bin workshop held at the Sustainable Backyard on May 6, 2012.
 - b. Promoted four compost drop offs (two in April, one in May, one scheduled in June and September).
3. Promote all new services in the Resource Recovery Agreement and promote waste, waste reduction and recycling services throughout the community.
 - a. Coordinate and promote Marin Sanitary Service tours - Completed on May 8, 2012.
 - b. Coordinate and promote workshop Extended Product Responsibility (EPR) at Marin Sanitary Service with California Product Stewardship Council to bring the Completed on May 11, 2012.
 - c. Design and promote "Zero Waste Wednesdays" at the Farmer's Markets in Fairfax. May 2, June 6th, July 11th, and August 1st.
4. Zero Waste Committee
 - a. Complete committee recruitment – June 2011
5. Coordinate a Zero Waste Panel
 - a. Scheduled for September
6. Design and promote Zero Waste Stations at local events.
 - a. Good Earth Opening - June 2nd
 - b. Fairfax EcoFest - June 9/10

c. Fairfax Picnic - September

COSTS

Using the Financial Report Form, please provide a simple breakdown by unit, hour, category or service rendered by contractor and the associated incurred cost the grant funding has helped cover to date.

1) Personnel Costs

Please describe personnel costs associated with planning, management and administration of Waste Reduction Program implementation used to date.

1. Zero Waste Program Coordinator, Sustainable Fairfax (Renee Goddard), collaborated with Marin Sanitary Service, California Product Stewardship Council, Conservation Corp North Bay, Town of Fairfax and local officials.
 - a. Start date July 2011 – June, 2012
 - b. Worked 240 hours at \$25/hour or a total of \$6,000.
2. Consultant organizational oversight staff & organizational support.
 - a. Worked 84 hours at \$25/hour or a total of \$1,500.

2) Material / Contract Costs

Please describe costs related to development of materials / contracts for Waste Reduction Program Implementation to date.

1. Contract with non-profit, Conservation Corp North Bay (CCNB) to manage all waste (recyclables, PLAs, compost and landfill) from the Fairfax Festival on June 11-12. CCNB provided six Zero Waste Stations, over 40 recycling totes, and over 10 staff from 8am to 7 pm on Jun 11 & 12. The contract totals \$2,500. Please see attached contract for further details.

3) Town Staff Administrative Costs

The Town Manager/Public Works Director accomplished the following tasks in accordance with this Zero Waste Grant:

- a. Wrote Zero Waste Grant and submitted to the Town Council for approval. – 3 hours
- b. Wrote and Town Council approved a Professional Services Agreement with Sustainable Fairfax – 3 hours
- c. Met with Sustainable Fairfax staff several times and with the Council Appointed Zero Waste Committee to coordinate this grant – 2 hours
- d. Wrote and submitted this Final Report - 2 hours

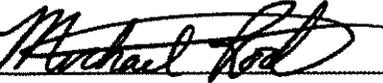

Hourly FBLR is \$175/hour at 10 hours of work = \$1750

SUMMARY OF COSTS:

Professional Services Agreement with Sustainable Fairfax	\$7,500
Contract with North Bay Conservation League	\$2,500
Town Staff Time	\$1,750
TOTAL REQUEST FOR REIMBURSEMENT TO THE TOWN:	\$11,750

Certification

I declare, under the penalty of perjury under the laws of the State of California, that all information herein submitted to the Marin County Hazardous and Solid Waste Management Joint Powers Authority for the Zero Waste Grant Fund is true and accurate to the best of my knowledge.

Progress report for 2012-2013 JPA funds

Explanation of Project:

Program Start Date & Progress:

Program Commencement Date – July 2012

Tasks-

1. Coordination of recycling and composting at special events. **100%**
2. Promote waste reduction and recycling services throughout the community. **50%**
 - a. Designed and promoted “Zero Waste Wednesdays” at the Farmer’s Markets in Fairfax. July 11th, and August 1st.
 - b. Promoted public compost delivery (from Zamora) and pickup from MSS.
 - c. Promoting Universal Hazardous Waste program.
3. Design and promote zero waste stations at local events. **100%**
 - a. Streets for People - September 2012 (1,500 people)
 - b. Sustainable Fairfax Fundraiser - August 26th, 2012 (150 people)
 - c. Fairfax town picnic (500 people)
 - d. September 29th, 2012, Craft Faire zero waste preparation - December 8, 2012 (1,500 people)
4. Completed a Zero Waste Panel on September 13th, 2012. **100%**
 - a. Included speakers on zero waste from the community and strategic planning for the town of Fairfax. Held at the Community Church. 50 community members present.
5. Implementation of recycling systems at three model businesses in Fairfax. **30%**
 - a. Created business packets, which includes recycling model, pitch, education and guidelines.
 - b. Implementation scheduled for January 2013.
6. Preparation for Take Back Day & Recycle Circus April 27th, 2013. **20%**
 - a. Large-scale event aimed at outreach and education on reuse, recycle options as well as MSS services.
 - b. E-waste, shredder and prescription drug take back available.
 - c. Developing first “recycle circus” in Fairfax, highlighting REUSE.
7. Recycling receptacles in public buildings (Women’s Center & Pavilion). **10%**
 - a. Provide receptacles, education and signage for both venues
 - b. Coordinate pick up and logistics with Town and MSS
8. Zero Waste Committee (ongoing)
 - a. Continue to grow and coordinate committee
 - b. Meeting on a monthly basis
 - c. Engage and drive community in zero waste initiatives
9. Conduct composting workshops for the community **50%**
 - a. Scheduling winter/spring compost workshops for children

WHAT WE DO

EDUCATE community on sustainable environmental practices, supporting a local economy and building community.

INSPIRE citizens to take action on issues such as Climate Change, Toxins, Zero Waste, Food, Water, Transportation, the Local Economy and other sustainability topics.

INFLUENCE decisions made by our local government to consider long term impacts of policy on the environment, the local economy and our community.

PARTNER with local government, local businesses, other non-profits and community groups to support a strong community, local economy and diverse ecology.

SUSTAIN THE EARTH

SUSTAIN HEALTH

GMOS: Genetically modified organisms are used in the production of our food, yet are untested for human health effects. We support the GMO Labeling Campaign, so people can make informed decisions about the foods they eat.

HOUSEHOLD CHEMICALS: We provide education about toxic chemicals in common household products and identify safe alternatives.

SUSTAIN COMMUNITY & OUR LOCAL ECONOMY

FAIRFAX SUNDAY STREETS: Together with the Town of Fairfax and the Chamber of Commerce we will invite all Fairfax residents and friends to come out and play in the street. The road will be closed to cars, so this is your chance to shop and dine and stroll right down the middle of our downtown!

USE THE FAIRBUCK!

This is the second year for the Fairbuck, our community based currency that encourages investment in our local economy.

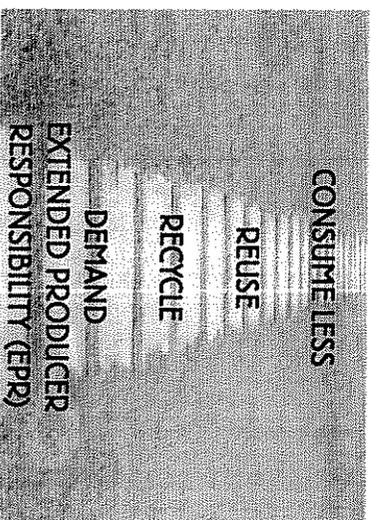

Check out the new design for 2012!

ZERO WASTE OUR THEME FOR 2012

It is no secret we extract natural resources from the earth at a staggering rate. Many of these resources are used to replace goods that wear out too soon or are designed for only one use. We have become accustomed to generating mountains of trash dumped in our landfills every day.

From the Zero Waste perspective, trash is only the byproduct of poorly designed systems at the government, corporate, community and household levels. To achieve Zero Waste we must acknowledge our power to change destructive patterns. Thankfully, the principles of Zero Waste provide us with a roadmap to get there:

This year, the Town of Fairfax awarded Sustainable Fairfax with funds to help the town achieve the goals set by its zero-waste ordinance, aiming for 94 percent waste diversion from landfill by 2020.

Sustainable Fairfax will be holding workshops and coordinating recycling and composting programs within the community, highlighting and inspiring creative re-use, and teaching concrete steps to re-think and re-duce what we throw away on our road to Zero Waste. Visit our website or come to Green Wednesdays to learn more.

SUSTAINABLE FAIRFAX

ZERO WASTE WEDNESDAYS

FAIRFAX FARMERS' MARKET, BOLINAS PARK

We will be educating citizens about Zero Waste on four Wednesdays at the Fairfax Farmers Market this year. Each month will offer a different challenge. Come by our table on the dates below to learn more!

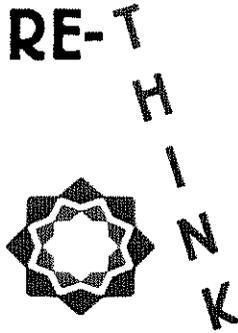

MONTH 1 - MAY 2
Compost Kitchen scraps this month
(or create a worm bin!)

MONTH 2 - JUN 6
No drinks or produce sold in plastic containers this month

MONTH 3 - JUL 11
No paper coffee cups or single-use paper bags this month

MONTH 4 - AUG 1
Call Main Sanitary Services to reduce your trash container size to 20 gallon cart

Take the
Zero Waste
Challenge!

THE ROAD TO ZERO WASTE

USE REUSABLE BAGS

HOW MANY SINGLE-USE BAGS
DO CALIFORNIANS
USE PER SECOND?

600 BAGS PER SECOND

TAKE ACTION

Bring your own reusable bags
when you go shopping.
Buy them or make your own
out of old clothes!

DITCH PLASTIC

HOW MANY OUNCES OF OIL
ARE USED TO MAKE ONE
16-OUNCE PLASTIC BOTTLE?

5 OUNCES

TAKE ACTION

Avoid drinks in plastic bottles.
Use your own reusable bottle,
or buy drinks in
glass or aluminum.

USE YOUR OWN MUG

ARE PAPER COFFEE CUPS
(LIKE STARBUCKS) RECYCLABLE
OR AT LEAST COMPOSTABLE???

No!

THEY END UP IN THE LANDFILL

TAKE ACTION

Most coffee shops allow you
to bring a reusable mug.
Or make your own coffee!

CONSUME LESS

& REDUCE WHAT YOU DO NEED

REUSE

WHAT YOU CAN'T REDUCE

RECYCLE

WHAT YOU CAN'T REUSE

EPR

DEMAND REDESIGN OF
PRODUCT PACKAGING

WHAT IS EXTENDED PRODUCER RESPONSIBILITY (EPR)?

EPR requires manufacturers
to minimize the
environmental impact
of their products at each stage
of the product's lifecycle.

This includes
taking responsibility
for the product's end-of-life by
creating take-back programs
for the reuse and recycling
of their products.

TAKE ACTION

Avoid purchasing products
that use **excessive** and/or
non-recyclable packaging.

**Contact the manufacturer and ask
them to be responsible!**

Support manufacturers that have
initiated take-back programs
(i.e. Dell, Patagonia) and thank
them for doing so.

Sustainable Fairfax invites you to a Zero Waste Event...

TRASH TALK: PANEL AND DISCUSSION

THURSDAY, SEPTEMBER 20, 2012
6:45 - 9:00 PM

FAIRFAX COMMUNITY CHURCH
2398 SIR FRANCIS DRAKE BLVD.

FREE ADMISSION

Learn from a panel of experts what "Zero Waste" means and how you can help Fairfax achieve Zero Waste by 2020. You'll also have a chance to work with your neighbors to develop your own action plan, see exhibits, and learn about resources that can help you on the path to zero waste.

Introductions by Renee Goddard

Moderator: Pam Hartwell-Herrero, Mayor, Town of Fairfax

Panel:

- **Kim Scheibly**, Outreach and Communications Coordinator for Marin Sanitary Service
- **Andy Peri**, Green Sangha and co-founder of Rethink Plastics
- **Carrie Bachelder**, Owner of the Away Station for re-purposing building and architectural materials
- **Rebecca Burgess**, Ecologist, restoration educator, and founder of non-profit, Fibershed

ABOUT ZERO WASTE FAIRFAX 2020

What we throw away affects the health of all living things. The Town of Fairfax has contracted Sustainable Fairfax to help it achieve the goals set by its Zero Waste Ordinance, aiming for 94% diversion from landfill by 2020. Sustainable Fairfax is holding workshops, coordinating take-back, recycling, and composting programs within the community, and inspiring creative re-use and teaching concrete steps to re-think and reduce what we throw away on our road to Zero Waste.

The principles of zero waste provide us with a roadmap to reduce waste: Consume Less, Reuse, Recycle, and Demand Extended Producer Responsibility. For more information, see <https://www.sustainablefairfax.org>.

Creating New Holiday Traditions with Zero Waste In Mind

Posted on December 3, 2012 at 8:03 pm

Recommend: 10 Tweet: 0

Email Print 11 Comments

The holidays are upon us and it is a good time to start new family traditions. Our waste is said to increase by 25% between Thanksgiving and New Years Day. What can we do differently?

When I was teenager, during the early years of the recycling movement, my family received a set of plates and silverware from a relative. This gift included napkin rings. My mum decided to use cloth napkins instead of paper ones. Our first set of cloth napkins were red bandanas. We each had our own unique ring to hold our napkin until it was ready for the wash.

A cloth napkin may be re-used for several days, depending on you, of course, and what you had for dinner. You can create your own napkin rings from any number of things. Most of my extended family still uses cloth napkins. I wonder how many trees we've saved? In addition to trees we saved landfill space. According to the [EPA](#) almost thirty percent of landfill waste comes from paper products. What about the energy, and chemicals from the production of paper napkins? Water too, despite the theories that washing uses more water, as napkins take up little room and are simply added to the laundry we already do.

More Tips For Reducing Paper Use:

- Use cloth towels instead of paper ones. Linen towels are well known for drying glassware to a sparkling shine. A friend has a cloth towel hanging by the sink for hand drying and one by the stove for dishes. I still use paper towels, however a roll may last me a year. How long can you make one last? Please remember to put your food soiled paper towels in your [green waste bin](#). Food scraps go in the green bin too!
- Old t-shirts, bed sheets, and towels make great rags. Tear them to your preferred size and stash them under your kitchen and bathroom sinks and in the garage. They are absorbent and re-usable plus they won't end up in the landfill. Turn less the worn sections of flannel sheets into dish towels.
- Buy [responsibly manufactured](#) toilet paper (and other paper products). When I was little, my mother told us that we only needed 4 sheets of TP. Now this seems a bit Spartan, yet it still provides me with a baseline for using less.
- Then there are plates and silverware. Use real ones and practice good dishwashing [techniques](#). Some of the sweetest moments after a holiday meal are being part of the clean-up crew. Use this as another opportunity to connect with your relatives and help out. Or be a kitchen angel and sneak away for a break from the festivities.

Welcome to Green Tips from Sustainable Fairfax

Posted on November 26, 2012 at 4:04 pm

[Recommend](#) 7 [Tweet](#) 1

[Email](#) [Print](#) [15 Comments](#)

We have all heard about the impact our waste has on the earth, on animals, and on people: the island of plastic and other debris trapped by the gyre in the North Pacific Ocean; birds dying, malnourished, their stomachs full of plastic bits; whole communities, often of lower income, falling ill because of improperly disposed industrial waste; how landfill gas contributes significantly to climate change, and so on. It is daunting! What can one person do? Thankfully, Zero Waste is a concept and goal that is gaining traction around the world. It is not just about recycling, but is about changing systems at the government, corporate, and household levels.

The Town of Fairfax has embraced the Zero Waste movement by passing a resolution to achieve ninety-four percent diversion from landfill by 2020. This means that only six percent of all our waste will end up in the landfill; the remaining ninety-four percent will be reduced and reclaimed! Earlier this year the Town of Fairfax and Marin Sanitary Service (MSS) contracted with Sustainable Fairfax to help achieve this zero waste goal. Fairfax is joining communities around the world in creating less waste and we are excited to get going.

Dealing with waste is a complicated matter. How do we dispose of the debris from our lives be it plastic, rotten food, last season's clothing, a broken toy, dead cell phone, expired medicines, or anything else? Especially when you wonder where does this—paper bag, juice box, old cauliflower, battery—go? Do I put it in the garbage, green waste can, compost bin, or is it hazardous waste? [Marin Sanitary Service \(MSS\)](#) and [Sustainable Fairfax](#) can help you answer many of these questions.

Through this monthly blog we invite you to join us on the road to Zero Waste. Our aim is to make it as simple as possible by offering ways to cut down on waste and maybe even save you some money! We will be starting at home first. Further along the way we will address other routes to attain Zero Waste such as advocating for governmental policies that curb waste and helping producers understand their responsibility for packaging through [Extended Producer Responsibility \(EPR\)](#). After all we, the consumers, pay for discarding this packaging, not to mention the cost to the environment. We look forward to many fruitful conversations as we change our habits and discover a more sustainable and expansive awareness of

waste.

Look for our Green Tips Blog the first week of every month and see you on the Road to Zero Waste!

Dear S.R.,

Put it in the compost, if you have one; or give it to your neighbors hog, if a hog lives nearby; failing that there is your trusty green waste can. Check with your local waste hauler to see if they accept food waste, many do now.

Carol Katz

Dear Rachel,

Congratulations on a most important venture. We all have to become aware of sustainability and save our environment. The Cote St. Luc community where I live has implemented measures to make a clean environment. I look forward to your suggestions.

Carol Katz, Montreal, Quebec, Canada

Green Tips Requests Your Help

Posted on January 7, 2013 at 10:02 pm

[Tweet](#) 3

[Email](#)

[Print](#)

[5 Comments](#)

Please help Sustainable Fairfax and the Town of Fairfax achieve our goal of Zero Waste by 2020! Simply follow this [link](#) and take our brief survey. We truly appreciate your time in helping us with this important project.

The next Green Tips Blog will be posted in a week. In the meantime can you guess what I got for Christmas? In my last [blog](#) about using cloth towels instead of paper, I confessed that I use Kleenex, one of the least sustainably produced brands of face tissues. Well, much to my surprise and delight I got hankies for Christmas. In addition to a collection of vintage hankies from my mum and a friend, my mum also gave me a Kleenex style box of reusable organic cotton tissues.

The cute box is made of waterproofed cardboard and has a drawer for the used tissues. Plus it is both waterproof and compostable. The tissues are soft and petite. While looking to see where to purchase more I discovered, via [facebook](#), that the company, Better For Grownups, just went out of business. You still might find some on Amazon. They were a division of Better For Babies, which is still in business.

I'm enjoying using my hankies. Maybe you can too. Do you have any tucked away in a drawer somewhere?

And don't forget to take the [survey](#). We really do need your feedback. Thanks!

Just Say No to Paper and Plastic

Posted on January 27, 2012 at 10:19 am

[Recommend](#) 7

[Tweet](#) 4

[Email](#)

[Print](#)

[Comment](#)

It's time to stock up on reusable bags for your backpacks, purses and car trunks. The movement to eliminate single-use bags from stores is gaining momentum.

The [Marin County bag ordinance](#) in effect as of Jan. 1 comes on the heels of Fairfax's plastic bag ban approved by nearly 80% of Fairfax voters in 2009. The Fairfax measure, spearheaded by [Sustainable Fairfax's](#) Renee Goddard, was a great success for the town. [Plastic bags](#) are not only disastrous for the environment, but jam up the recycling stream and are rarely recycled.

Goddard emphasized that the Fairfax bag ban was pursued in the spirit of collaboration with Fairfax businesses. "Most of our retailers were already moving away from the use of single-use plastics. I believe they experienced this legislation as a positive, unifying opportunity to celebrate our

common desire to do what is right for the environment," she said.

The Marin County ordinance, impacting unincorporated areas of Marin, takes a big step forward by eliminating single-use plastic bags *and* mandating a minimum five-cent charge for paper bags, making reusable bags even more attractive.

Although the new law does not apply to incorporated cities and towns like Fairfax, **Good Earth Natural Foods** has stepped up to the plate by voluntarily participating, and is graciously donating the five-cent fee to Sustainable Fairfax. Although it is far more eco-friendly to bring reusable bags to the store than purchase paper ones (see our **Sustainable New Year's Resolutions**), Sustainable Fairfax will put these funds to good use by helping the town achieve its zero-waste goals. Fairfax's zero-waste ordinance aims for 95 percent diversion by 2020, which is five years ahead of the County.

Hopefully, other cities and businesses in incorporated Marin will recognize the importance of the plastic bag ban and paper bag charge and follow Good Earth's lead. **Paper bags** are extremely damaging to the environment, destroying trees and ecosystems, wasting massive amounts of water and energy, and requiring harmful chemicals to produce and recycle them.

The good news is that bag bans are spreading in California and beyond. They have been implemented in **ten states** within the United States, as well as many **developed and developing countries**.

California Assemblywoman Julia Brownley intends on continuing her fight to implement a plastic bag ban statewide in 2012. The Assemblywoman's previous plastic bag ban bill **AB 1998** was rejected by the California Senate in 2008, but, given the expansion of plastic bag ordinances across the state including unincorporated Los Angeles and the City of San Jose, the political landscape is now quite different.

The benefits of such legislation are clear. **China** implemented a plastic bag ban in 2008 and reportedly saved 60,000 tons of plastics, equal to five million tons of coals, and reduced carbon dioxide emissions by over 10 million tons.

With efforts from governments, businesses and citizens, together we can curb the wasteful and needless practice of single-use bags.

Compost Giveaway for Fairfax Residents (Second Delivery)

Posted on April 30, 2012 at 11:30 am

[Recommend](#) 8 [Tweet](#) 2

[Email](#) [Print](#) [6 Comments](#)

Give your garden a boost with **FREE compost** available to Fairfax residents this Wednesday at the Fairfax Pavilion parking lot. This is the second of three official deliveries scheduled by Marin Sanitary Services (MSS) in accordance with a contract approved by the Fairfax Town Council in December of last year.

Bring a shovel, and a bag or container to transport the compost. You will be asked to present an ID to confirm you are a Fairfax resident.

The first delivery earlier this month was dropped off a day early to avoid the storm, and went very quickly!

Christmas Tree Recycling

Posted on December 29, 2012 at 3:46 pm

[Recommend](#) 0 [Tweet](#) 2

[Email](#) [Print](#) [Comment](#)

If you are ready to say goodbye to your Christmas tree, Marin Sanitary Service makes it easy to recycle. During the month of January, just include your tree with your regular curbside yard waste pickup in the green bin. If your tree is over 6 feet tall, please cut it in half. And don't forget to remove all ornaments and tree stands.

Unfortunately, flocked trees are not recycled and will be disposed of with the garbage (please avoid this next year!).

You may also bring up to two trees to Marin Resource Recovery Center at 565 Jacoby Street in San Rafael free of charge during the month of January. (This may be a good alternative if you have a tall tree that you do not want to cut in half). Flocked trees will be accepted for a fee.

Please note that if your regular scheduled pickup is Tuesday through Friday, your pickup will be delayed by one day for New Year's week (and, yes, for those normally scheduled for Friday, there will be Saturday pickup).

Trash Talk: Helping Fairfax Achieve Zero Waste

Posted on September 19, 2012 at 11:22 pm

Recommend 23 Tweet 2

Email Print 3 Comments

Is it possible to achieve zero waste? By looking at our landfills it seems to be an impossible task. But when you dump out a trash can and inspect every item that is thrown away, there is an alternate solution for most everything. Learn about the possibilities on Sept. 20 at [Trash Talk](#), a free educational and collaborative event on zero waste hosted by [Sustainable Fairfax](#), and taking place at the [Fairfax Community Church](#) at 6:45 p.m.

The event will feature a dynamic panel of experts from diverse backgrounds:

Kim Scheibly, Outreach and Communications Coordinator for [Marin Sanitary Service](#), will address waste management and landfill practices. **Andy Peri**, founding member of [Green Sangha](#) and co-founder of Rethink Plastics, will trace the evolution and destruction of plastics in our environment. **Rebecca Burgess**, founder of the non-profit [Fibershed](#) and author of [Harvesting Color](#), will speak about our sense of place and commitment to our watershed. **Carrie Bachelder**, founder of the [Away Station](#) in Fairfax, will discuss re-purposing of materials and how to diminish our "throw-away" habits.

Community members will be invited to help develop creative solutions to reduce common sources of landfill waste, and will leave the event with a concrete action plan in-hand.

This event is part of a larger initiative to help the Town of Fairfax reach its goal of zero waste by 2020, five years ahead of Marin County. Earlier this year, the Town entered into an agreement with Marin Sanitary Service to divert 94% of waste from our local landfill by the 2020 goal. To further this effort, the Town contracted with Sustainable Fairfax to hold workshops, coordinate take-back, recycling, and composting programs within the community, and teach residents concrete steps to re-think and reduce what we buy and throw away on our road to zero waste.

The zero waste project has seen great successes this year, including an 84% diversion from landfill at the Fairfax Festival. Come to the event this evening and be a part of the movement that will have an enormous impact on saving our natural resources and reducing environmental pollutants and emissions. See you on the [road to zero waste](#).

Sustainable New Year's Resolutions

Posted on January 4, 2012 at 5:51 am

[Recommend](#) 12[Tweet](#) 4[Email](#)[Print](#)[Comment](#)

Bringing sustainability into your day-to-day routine can seem challenging. To help you out, we've pulled together 12 resolutions to make it easy for you get on the path to a healthier, more sustainable 2012. Through the year, we'll be exploring each topic to give you more information about bringing these practices into your daily routine!

1. Bring your own bag! Make your reusable bags as important as your grocery list and keep them in your backpack, purse, car, and bike so that you always have them handy. And, remember, cut down on plastic use by bringing your own produce bags for smaller items.

2. Just say no to GMOs! Research ties the introduction of GMOs into our food supply with the increase in allergies and food-related illness, and organ failure, not to mention increased pesticide/insecticide use and crop failure. Avoid foods containing canola, soy, corn, cottonseed, sugar beets (and their derivatives) unless organic or GMO-free.

Download the [Non-GMO shopping guide](#) for assistance and get involved with local GMO-labeling advocacy!

3. Green your cleaning products! Look for green products certified by EcoLogo or Green Seal, which meet green standards. Better yet, make your own. Our own Stacy Wineberg Dieve is teaching a class on making non-toxic cleaning product. [Sign up now!](#)

4. Support your local economy! It may seem unimportant, but supporting local businesses is crucial to promoting a vital, flourishing local economy and for improving town infrastructure. Turn to local stores for your necessities and gifts, and re-invest your tax dollars in your town. Shopping with [Fairbucks](#) makes it fun and easy, and many Fairfax businesses [offer specials for customers paying with Fairbucks](#).

5. Kick the can! Bisphenol A (BPA) is an endocrine disruptor, a class of synthetic chemicals that mimic or disturb hormones, including testosterone and thyroid hormones. BPA is linked to cancer, early puberty, reproductive problems and a number of other serious diseases and health problems. **Over 90 percent of the canned food on the store shelves in the US contain BPA in the can linings.** The BPA in cans leaches onto the food contained inside. Therefore, when we use canned food, there is a strong chance we are serving BPA with our meal too. Even products labeled "healthy" or "organic" are just as likely to be contaminated with BPA as their conventional counterparts.

6. **Make It an organic apple a day!** Apples topped the list of the Environmental Working Group's "Dirty Dozen" list, with 98 percent of conventional apples tested containing pesticides. Their Shopper's Guide to Pesticides in Produce will help you determine which fruits and vegetables have the most pesticide residues and are the most important to buy organic. It also features the "Clean 15," which are the fruits and vegetables with the lowest pesticide residues.

7. **Kick the carcinogens out of your personal care products!** Only 20 percent of the chemicals used in cosmetics are tested for health and safety. Check out the Teens Turning Green Dirty Thirty List and the Environmental Working Group's Skin Deep Cosmetics Database to help you read labels and find safe products.

8. **Volunteer!** Sustainable Fairfax, the Fairfax Volunteers, and the Fairfax Park and Recreation Department have programs throughout the year to improve Fairfax common areas, help community members, and build community through fun events.

Sign up for the Fairfax Volunteers newsletter and for the Sustainable Fairfax newsletter to find out about these great opportunities, including working at the Food Pantry, trail-marking, creek clean-up, Peri Park clean-up, the Fairfax Festival, Summer Picnic, and more!

9. **Go native!** Native plants require less care and water, and provide natural food and habitats for bees, birds, and other beneficial life. The California Native Plant society has great resources for the home gardener.

10. **Support our cyclists!** Fairfax is a great place for cycling, and the number of kids who bike to school is on the rise. In 2012, Fairfax will be implementing a bike spine to help kids bike to Manor safely. Young cyclists appreciate your extra patience and space as they learn to navigate our streets! To make it safe for cyclists of all ages on our narrow, crowded streets, please slow down and share the road.

11. **Spare the Air!** The Winter Spare the Air program notifies residents when particulate matter levels are anticipated to be unhealthy. On these high pollution days, the Air District will issue a Winter Spare the Air Alert, which prohibits wood burning throughout the Bay Area.

Ozone pollution, or smog, can become a health problem in the Bay Area. The Spare the Air program notifies residents when air quality is forecast to be unhealthy, and urges residents to drive less and reduce activities that contribute to smog. **Sign up for EnviroFlash AirAlerts** to receive e-mail notification when Spare the Air Alerts are issued.

12. **Join Sustainable Fairfax!** Your membership supports our programs and projects, like leading the plastic bag ban and working with the North Bay Conservation Corps and Marin Sanitary Service to bring the community progressively toward Zero Waste. We also provide educational programs throughout the year, and host events like EcoFest and the Holiday Craft Fair. Click here for more information!
