

TOWN OF FAIRFAX
STAFF REPORT
August 6, 2014

TO: Mayor and Town Council
FROM: Michele Gardner, Town Clerk
SUBJECT: Appreciation of community contributions to the Sustainable Garden at the Women's Club

RECOMMENDATION

Express appreciation.

DISCUSSION

Councilmember Goddard asked that this matter be added to the agenda, to thank the following members of the Fairfax community for creating the beautiful Sustainable Garden outside the Women's Club:

Christian Douglas, Backyard Farm Company
Jen Jones, Sustainable Fairfax
Merrell Maschino, Sustainable Fairfax
Melanie Peratis

The garden is a low-water, sustainable landscape design. The plants were selected for their qualities of drought resistance, deer resistance, as well as their edible and medicinal properties. Most are native to California and provide habitat and food for insects and animals.
