

# TOWN OF FAIRFAX

## STAFF REPORT

**To:** Mayor and Members of the Town Council  
**From:** Michael Rock, Town Manager   
**Date:** February 3, 2010  
**Subject:** Parks and Recreation Commission support of a batting cage at Central Ball Field

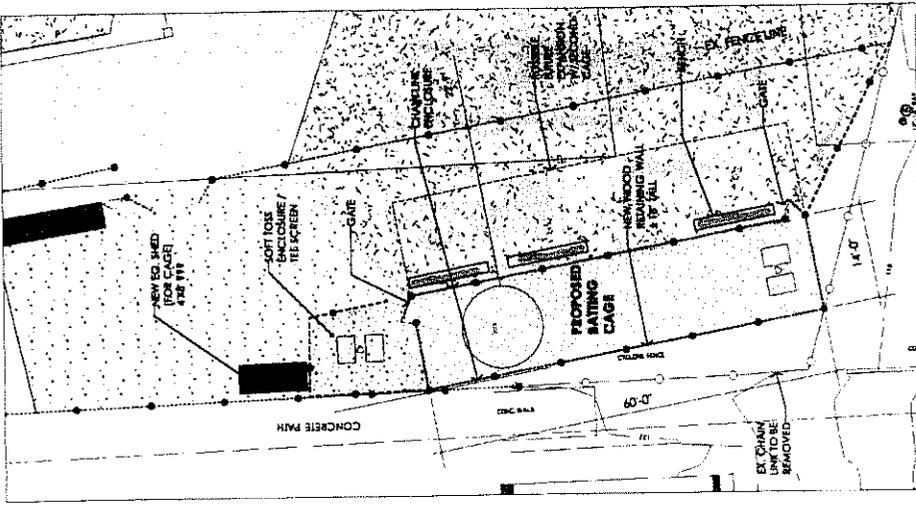

### DISCUSSION

On January 13, 2010 the Parks and Recreation Commission voted to approve the plans and construction of a new batting cage at Central Ball Field. West Marin Little League made the request and will be funding the construction themselves through fundraising and donations. The batting cage will be a 14' by 16' box with a wooden retaining wall. The batting cage will be locked and available for use only under supervision of Little League coaches for practice by players. Gary Roth of Roth LaMotte Landscape Architecture will coordinate and oversee the project.

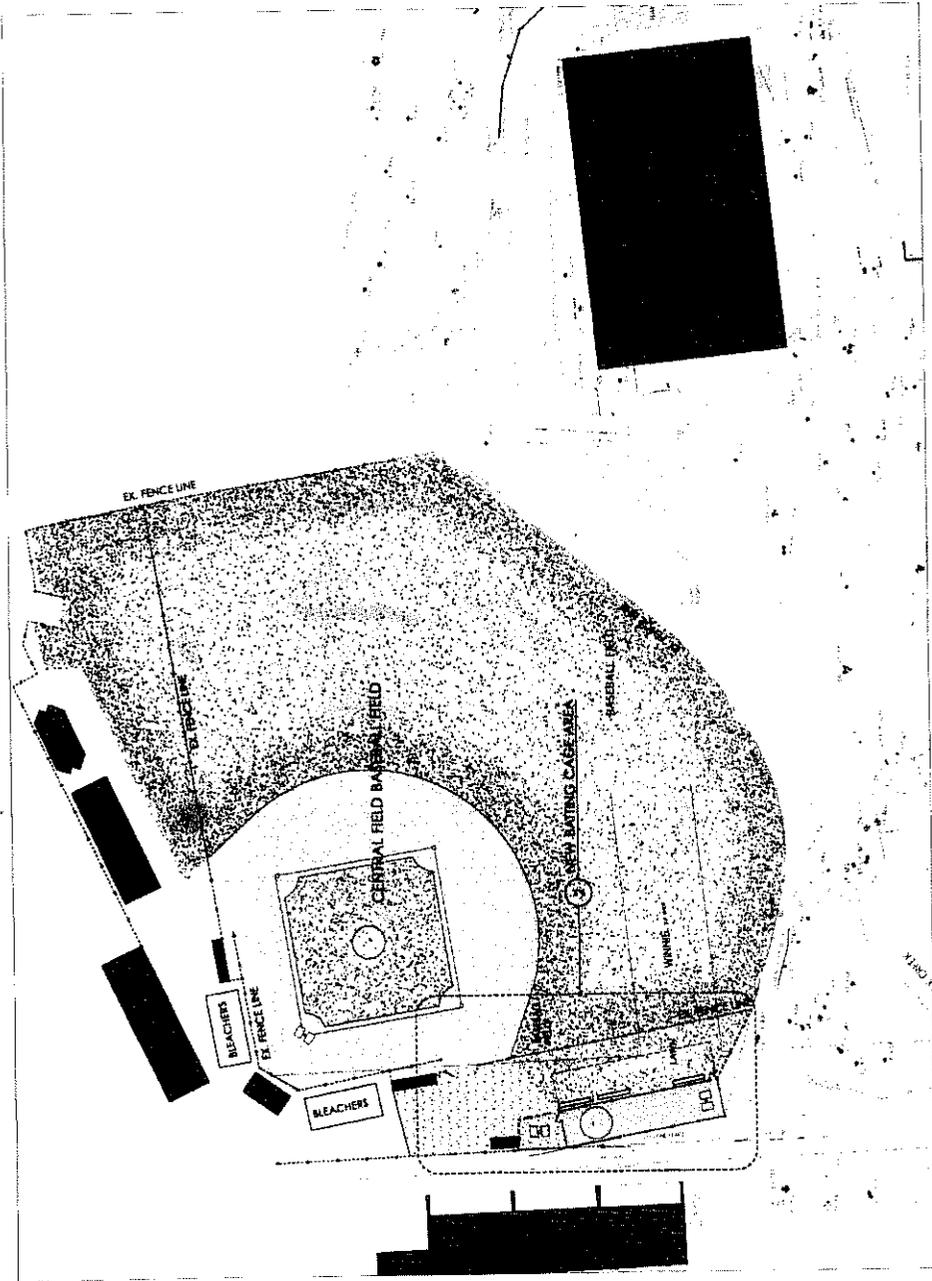

There will be power accessible to the site, and the flooring will be made of a permeable surface of either coconut fiber or some comparable material. The batting cage is a temporary structure and thus does not need the approval of the Planning Department. Vehicle access to the ball field will remain.
