ROSS VALLEY SANITARY DISTRICT BOARD APPROVES SEWER SERVICE CHARGE REBATE PROGRAM

Fairfax/Larkspur/Greenbrae/Ross/Kentfield/San Anselmo, October 3, 2016

At the regular Ross Valley Sanitary District meeting of September 21, 2016, the District Board approved a pilot program to offer sewer service charge rebates to eligible Ross Valley Sanitary District customers. Eligible low-income households may apply to the District to receive a 25% rebate off their annual sewer service rate.

Marin County property tax bills are scheduled to be mailed out in October, and the Ross Valley Sanitary District sewer service charges (shown as Sanitary District #1 Larkspur or Sanitary District #1 Ross Valley on your property tax bill) will be due November 1st and February 1st, along with County parcel taxes and other charges. For the first time this year, eligible Sanitary District #1 qualifying customers may apply for a rebate on their sewer service charges.

The sewer service charge rebate program is available to all Sanitary District #1 customers who meet Marin County Housing Authority low-income criteria or below. The rebates are available on a first come, first served basis. District Board Member Pamela Meigs commented, "After working for many years to help low income residents, I am elated that the Board unanimously supported this rebate program."

Ross Valley Sanitary District staff are available Monday through Friday from 7:30 a.m. to 4:00 p.m. to answer questions about the new rebate program. Please call 415-259-2949 or email info@rvsd.org. The Ross Valley Sanitary District has provided wastewater conveyance services in Marin County since 1899.
